INSTRUCTIONS

The purpose of this annual survey is to provide the State Department of Education with data to be used in the computation of grants to local educational agencies (LEAs) directly responsible for providing free public education for children in institutions for neglected or delinquent children.

SECTION I - INSTITUTION AND SCHOOL DISTRICT

1. NAME AND ADDRESS OF INSTITUTION - Enter legal name and address of the institution. If the name of the institution has changed since last year, please show the old name in parenthesis.
2. TYPE OF INSTITUTION - Check only one box to identify the type of institution being reported. Please note that the category of an institution should not change from year to year unless there has been an official change in the purpose for which the institution is operated. For example, if an institution is operated for the care of neglected children, but the majority of the children residing in the institution during October are children adjudicated to be delinquent, the institution should still be reported as an institution for neglected children until its charter or purpose is officially changed to show that it is an institution operated for the care of delinquent children. Consistency in reporting from year to year is necessary because changing the category of an institution affects the hold-harmless allocations and eligibility for Concentration Grants. If an institution does not meet the definitions of institutions cited, it **SHOULD NOT BE INCLUDED** for purposes of this survey.
3. LOCAL EDUCATIONAL AGENCY - Identify the name, address and county of the LEA in which the institutionalized children attend school. The identified LEA will receive Title I funds generated on behalf of the neglected or delinquent children and will be responsible for providing Title I services. **It is very important to identify the LEA where children attend school rather than the LEA in which the institution is located, if they are not the same.**
4. CASELOAD - Enter the total number of residents aged 5-17, inclusive, who were in the institution for at least 30 consecutive days, counting at least one day during the month of October. These data will be used in the formula for determining LEA allocations and are subject to audit.

SECTION II - BASIS FOR ELIGIBILITY

If the answer for any item is "no," please explain on a separate sheet on what basis the children in this institution should be counted for local educational agencies purposes.

SECTION III - CERTIFICATION

This report must be signed by the Chief Administrative Official of the institution to certify that the information reported is complete and accurate.

SECTION IV - REVIEW OF DISTRICT TITLE I ESEA COORDINATOR

The information reported by the institution must be reviewed and approved by the district's Title I official to ensure that such information is complete and accurate.
